**Augusto
Fazioli**

Milan
Italy

Augusto has 30+ years of experience in the Information Technology Consulting business and has had the opportunity to work for multinational corporations as a manager as well as to found companies as an entrepreneur. More specifically he founded and later sold two IT companies: the first was a system integrator, focused on telco and banking industry, the second was a software company fully dedicated to banking. In both cases his companies worked for medium to major size enterprises.

He currently works as an advisor to C-level executives in a variety of industries with a focus on disruption innovation and how it can improve business performance. As a business angel he is also investing and coaching startups in the early stage of their development.

He holds a Master of Science in Business Administration and Management at Bocconi University – Milan and has attended several executive programs, among them the Entrepreneurship Program at London School of Economics and EP at Singularity University. He has a Coursera certification on Machine Learning and has enrolled in Physics as a second University Degree.

Last but not least, he recently started an agriculture business to make sure he keeps his feet on the ground!
